It is the Customer's responsibility to ensure the 'Account Number' or underlying (connected) account number from their existing carrier is correct.

10.3.12 The Customer acknowledges and agrees that if they do not supply the information Notifyre requests on the Porting Application, Notifyre may not be able to provide the Services to the Customer.

Notifyre accepts no responsibility for any fees and charges by the Customer's existing carrier.

The time frames may vary from carrier to carrier and/or based on the number type, configuration, or its associated numbers.

10.5.2 Notifyre and its carrier will use its reasonable endeavors to connect the Services by the advised date but does not warrant that the Services will be fully connected and operational by that date. Notifyre and its carrier are not liable for any loss or damage the Customer may sustain as a result of delayed connection or porting completion.

10.5.3 The Customer understands that number connectivity issues may arise as a result of number porting. Notifyre accepts no responsibility or liability for carrier-to-carrier connectivity issues, including but not limited to number routing, number tables and call mapping across carriers.

10.5.4 The Customer acknowledges that while Notifyre and its carrier will use its reasonable endeavors to supply the Services, for reasons beyond Notifyre's control or due to unforeseen circumstances (including, but not limited to, force majeure, available capacity, geographic and technical capability or other technical issues), the Customer may not be able to obtain the Services. 10.6.4 If the Customer ports away a fax number/s, it is the responsibility of the Customer to cancel any applicable Notifyre plans connected to the fax number/s. Failure to do so will result in ongoing subscription charges. All charges are non-refundable.

10.6.5 In the event the Customer wants to port away a number hosted with Notifyre, a port away fee applies per number. Contact Notifyre support for further assistance.

All additional fax pages received to the Customer's account, will be charged at the overage rate applicable to the Customers fax number plan.

11.5 Where the Customer does not have wallet funds available for Notifyre to auto deduct overage charges, the Customer will be unable to view received faxes if payments fail after 10 days. To ensure service disruption is minimized, Notifyre recommends the Customer account has available Wallet Funds to ensure incoming faxes continue to be received.

11.6 The following financial terms are applicable to the Notifyre Receive services:

11.7 Monthly Billing (Credit Card Only): Notifyre Plans are paid in advance using the nominated credit card on the Customer's account. Payments are processed on a monthly anniversary date based on the original date of purchase. Every fax number service added thereafter will have a pro-rata charge for the remainder of the first billing period, then be billed on an anniversary months basis on the same billing date as the first receive plan added. Received fax page excess usage over the included subscription period quota will be charged against the balance in the Customer's Wallet.

11.8 Failure to process automatic online credit card payments for Notifyre subscription-based plans and associated charges, such as Receive Plans, may result in penalty fees after the second failed attempt to successfully process payment. Failure to pay any outstanding service fees within ten (10) days will result in service deactivation and/or cancellation.

11.9 If a Notifyre SMS or fax number service is cancelled by any means through request by Customer, failure to make payment, or otherwise, Notifyre does not guarantee that the same fax number will be available for reactivation, nor does it guarantee it will continue collecting any SMS or faxes sent to the cancelled service number. See [Section 8. Ownership of Fax Numbers](#).

11.10 Notifyre accepts credit card payment for services provided. Credit card payments are accepted using Visa, MasterCard, and American Express. All online transactions are processed via a secure site. When credit card and other payment details are provided over the telephone, Notifyre abides by strict procedures for processing and updating payments. Notifyre will at no time ask the Customer to provide credit card details via email.

11.11 Chargebacks: Incorrectly initiated chargebacks by the customer will incur an administration fee per chargeback. See additional fees for details. This fee applies to chargeback claims initiated by the customer which are incorrectly requested by the customer for goods or services provided by Notifyre. The customer must pay for the goods or services previously provided plus the above administration fee. This applies but is not limited to instances where the customer requires a refund for an overcharge or any other billing dispute but fails to raise this with Notifyre and initiates a chargeback.

11.12 Billing disputes: If there is an omission or error in relation to a charge on an invoice, the Customer may, within 3 calendar months of the invoice date, dispute the invoice by giving written notice of a billing dispute to the Notifyre Support team. The Customer may not dispute an invoice based on a claim that the invoiced services included fraudulent messages.
